Aprilia è lieta di presentarvi il nuovo Catalogo Accessori.

Vi permetterà di scegliere nell'ampia gamma di prodotti che completano i modelli Aprilia.

I nostri Accessori Originali sono realizzati per soddisfare ogni esigenza di personalizzazione e di funzionalità.

La progettazione di ogni singolo componente avviene infatti contemporaneamente allo sviluppo del modello.

Qualità dei materiali, esclusività del Design, estrema cura nei dettagli li rendono dunque prodotti assolutamente coerenti con le caratteristiche dei veicoli cui sono destinati.

english

Aprilia is pleased to present the new Accessories Catalogue.

It will enable you to choose from the wide range of products that add the finishing touch to Aprilia models.

Our Original Accessories are created to satisfy every need for customization and greater functionality.

Every single component is in fact designed at the same time that the model is developed.

Quality of materials, exclusive Design an extreme care for details make these products absolutely consistent with the characteristics of the vehicles for which they are intended.

français

Aprilia a le plaisir de vous présenter son nouveau Catalogue Accessoires.

Il vous permettra de choisir parmi une grande variété de produits qui viendront compléter le modèles Aprilia.

Nos Accessoires Originaux sont réalisés pour satisfaire toutes les exigences de personnalisation et d'amélioration fonctionnelle.

Chaque composant est en fait conçu parallèlement à la définition du modèle qu'il équipe.

Qualité des matériaux, exclusivité du Design, soin extrême porté aux détails, font d'eux des produits parfaitement intégrés aux véhicules auxquels ils sont destinés.

Aprilia heeft het genoegen om U hier de nieuwe Accessoire Catalogus te kunnen presenteren.

Deze stelt U in staat om te kiezen uit een breed assortiment producten welke een "finishing touch" toevoegen aan de Aprilia modellen.

Onze Originale Accessoires zijn ontworpen om aan de individuele creativiteit en een grotere functionaliteit te voldoen.

Elke accessoire is in feite ontworpen tijdens de ontwikkeling van het model waarvoor het bestemd is. Kwaliteit van de gebruikte materialen, exclusief Design en een buitengewone aandacht voor details zorgen ervoor dat deze producten absoluut overeenkomen met de kenmerken van de modellen waarvoor zij bedoeld zijn.

Ruota anteriore forgiata magnesio
Forged magnesium front wheel

Ulteriore contributo all'alleggerimento della moto ed alla maneggevolezza dato dai cerchi superleggeri realizzati in magnesio e ottenuti per forgiatura. Una soluzione per la prima volta adottata su una moto di serie che grazie ad un trattamento esclusivo garantisce la massima resistenza alla corrosione. Le viterie della ruota sono interamente realizzate in titanio. Interventi che complessivamente riducono il peso di 1,9 chilogrammi, rispetto ai cerchi in alluminio forgiato adottati in RSV 1000 R Factory.

Nato e progettato per migliorare le performances del motore

Sviluppato esclusivamente per l'uso in pista, è un programma completo per innalzare il volume e il rendimento del sistema di aspirazione di Tuono 1000 M.Y. '02-'05, con un peso ridotto grazie alla leggerezza del carbonio. Il corpo farfallato con diametro maggiorato contribuisce ad aumentare nettamente la potenza disponibile. Se utilizzato insieme agli scarichi sportivi "Aprilia by Akrapovic", consente di migliorare ulteriormente l'accelerazione.

Born in order to increase the engine performances

Developed exclusively for racing use (only circuit), it's a complete program to increase the airbox volume, for improving the volumetric tumble performance of Tuono 1000 M.Y. '02-'05. In addition the weight is sensibly decreased thanks to the carbon. The throttle body with enlarged diameter, helps in sensibly improving and increasing the available power. If used in combination with the racing "Aprilia by Akrapovic" exhaust system, it permits to improve even more the acceleration.

ergal 7075 ● kit for SR 50

Per le sue caratteristiche di **elevata resistenza meccanica e formidabile leggerezza**, la lega speciale **ergal 7075** viene sperimentata intorno agli anni '50 dall'industria aeronautica ed aerospaziale ed oggi trova **applicazione nel campo delle competizioni sportive**. Il processo di **colorazione dell'ergal mediante anodizzazione** mantiene l'aspetto del prodotto inalterato nel tempo. Nati direttamente dall'esperienza della **squadra corse**, i kit Aprilia Racing Experience raccolgono una gamma completa di viti ed accessori **realizzati in ERGAL 7075 all'insegna del binomio estetica/prestazioni**.

Ogni kit è proposto con la formula **all-inclusive**: all'interno è **contenuto il numero esatto di pezzi necessari** per la personalizzazione del veicolo insieme a tutti **gli strumenti utili all'utente** per la corretta installazione del prodotto (**chiave a brugola e grasso**). È inoltre corredato di un foglio descrittivo contenente le informazioni e le istruzioni per il montaggio.

Su ogni singola parte è stato **impresso a laser** il marchio Aprilia Racing - Ergal 7075.

*Thanks to its **excellent mechanical resistance and its remarkably light weight**, special alloy **Ergal 7075** began to be used in the Fifties by the aeronautic and aerospace industry. Today, it has found an **ideal application in the field of competition vehicles**. Ergal is **coloured using an anodization process** to maintain its appearance unaltered through time.*

*A direct spin-off from our **racing team activities**, Aprilia Racing Experience kits **provide a full range of ERGAL 7075 alloy screws and accessories**, **combining top level performance and aesthetics**.*

*The kits are **all-inclusive**, containing **precisely the number of items required** to customize the bike, plus the **necessary tools and accessories for installation (Allen wrench and grease)**. Each kit also comes with an **instruction / specifications sheet**.*

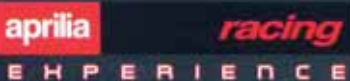

*Each part features a **laser inscription**: "Aprilia Racing - Ergal 7505".*
