Utility Warn Winches

- 1 Winching Accessory Kit**
INCLUDES: Snatch block: assists in double lined and angled pulls. Shackle for rigging attachments. Tree trunk protector: load strap to protect a tree trunk and other objects from the damage a wire rope might cause.
 YMD-63350-00-00
- 2 Roller Fairlead all models**
 Helps "guide" the cable into and out of the winch
 YMD-W0769-10-00
- 3 Syntetic rope (not shown)**
 Note: When replacing a wire rope with synthetic, it is necessary to replace the fairlead to avoid damage and wear to the new synthetic rope from the rough surface of the old fairlead.
 For 1.5 winch, 12 meter
 YMD-72495-00-00
 For 2.5 and 3.0 winch, 12 meter
 YMD-72128-00-00
- 4 Winching Gloves**
 Essential for safe handling of wire rope. Material: leather & cotton.
 YMD-14042-00-00
- 4 Remote Control**
 Remote control upgrade for CE 2.5 Ci winch and new 2.5 CE winch 2.5
 YMD-64259-00-00

Utility Warn Winches

1 Wireless remote control

The system is quick and easy to install, thanks to an integrated antenna and the included mounting hardware. The system allows you to operate your winch from anywhere within a 50' radius, increasing your recovery options.

Works with any WARN Powersports winch with a contactor and a mini-rocker control switch.

Operates your winch from anywhere within a 50' radius.

Built-in antenna and included hardware allows for quick and easy installation

Activation process and recessed buttons prevent accidental winch activation

Two color LED indicates when the system has powered on (green) and when the system has begun winching (red). Blinking red LED indicates low battery life.

System automatically powers off to conserve battery life.

Waterproof and rugged receiver ignores interference from other signals.

Ergonomically designed handheld remote has large buttons for easy use - even when wearing gloves.

Works at all vehicle voltage levels that allow winch operation.

All components are weatherproof.

YMD-74500-00-00

2 Flexi Winch

Now you can add a recovery system with 1,500 lb. of pulling power to your ATV. Kit includes integrated mounting plate with fairlead and handle, remote control with 10' lead, two D-shackles, 8' and 25' recovery straps and 40' of 5/32" synthetic rope. Quick-connect wiring plug. Custom bag for off-season storage.

GYTR

We have a full line of accessories for our Leisure range to raise comfort, performance or appearance. These accessories are designed and tested especially for your Yamaha.

Those who use their Yamaha intensively for sports and only want the best of the best should ask for Genuine Yamaha Technology Racing (GYTR™) accessories. Yamaha has developed GYTR accessories especially for racing and performance enthusiasts. A long history of engineering advances, knowledge earned in the pursuit of racetrack victories, and a reputation for quality workmanship have given Yamaha the technological advantage to produce GYTR accessories.

GYTR provides that edge racers need to seal victory. GYTR accessories are precision-made to Yamaha's exacting standards so they fit right and give a level of performance previously unavailable.

What sets GYTR apart from the competition? It's the winning combination of advanced technology, high-quality materials, and superior design. Yamaha's rigorous testing ensures superior durability and performance. Race inspired accessories designed to perform and please.

That's why people who know insist on the best and ask for GYTR by name.

1 Kick Shaft Kit

Includes all internal components necessary to adapt a kick start lever.
'04-'06
GYT-5TG07-20-00

2 Kick Crank Kit

Kick start lever is made of 2024-T3 billet aluminum, and attaches to a stock YZ450F kick boss which is supplied in the kit. This lever has been precisely designed to give you the leverage needed to start the motor yet also gives you enough clearance for your foot.
'04-'06
GYT-5TG07-35-00

3 Foot Wells Kick Start

Includes a pair of aluminum footwells. The right side has been designed to give you clearance for your foot when the kick start lever is installed. The rear fender must be cut to mount the footwells and to allow access for the kick start lever.
'04-'06
GYT-5TG57-30-00

4 Starter Block Off Plug

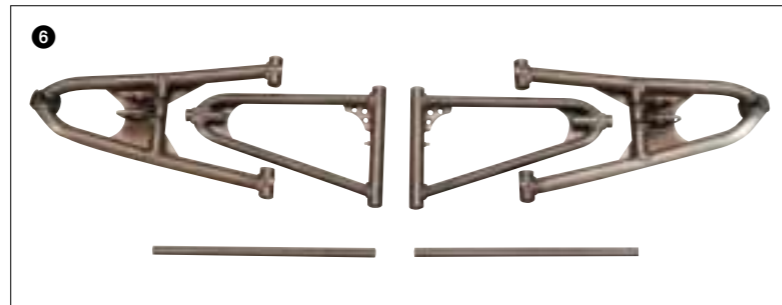

Required if the started motor is removed.
Uses stock starter O-ring.

1 Bumper with shield

Made of strong yet light weight 5052 and 6063 aluminum alloy tubing and sheet metal for the ultimate in protection and performance. "Bull Horn" design provides protection to the shocks and radiator while offering a large hand hold to man over the machine in sticky situations. Wrap under design provides a smooth transition from the front grab bar to the glide plate while not effecting the stock approach angles. Ball Burnished finish resists scratches for long lasting good looks.

18P-F84LO-U0-00

2 Alumium Bumper Tubing

Made of high quality yet aluminum 6063 alloy construction for the ultimate in protection and performance. 25.4mm tubing provides protection to the shocks and radiator while offering a large hand hold to manover the machine in sticky situations. Wrap under design provides a smooth transition form the bar to the glide plate while not effecting the stock approach angles. Ball Burnished finish for long lasting good looks

18P-F84LO-V0-00

3 Black Bumper Tubing

Similar to the Aluminium Bumper Tubing (18P-F84LO-V0-00) but with durable black powder coating for long lasting good looks

18P-F84LO-T0-00

4 High end Nerf bars including adjustable footwells

This accessory combines the nerfbar, footwell and footpeg into one accessory. Features 31.7 mm 6063 brushed aluminum alloy tubing construction for the ultimate in light weight, strength and performance with a extruded joint clamp that makes alignment and installation a snap. Features a 5 degree sweep that allows the ultimate in leverage, comfort and clearance. The integrated footpeg is 63.5mm wide and 19mm longer than stock with two height positions (19mm lower than stock or 31.7mm lower than stock) that allow the rider to adjust to their personal preference. Durable 38mm black nylon webbing, in both the nerf bar and footwell area so mud will flow through better. For racing use only.

GYT-18P64-KT-07

34

35

5 Nerf Bars, Black Webbing

30.5mm 6063 brushed aluminum alloy tubing construction for the ultimate in light weight, strength and performance. Features a extruded joint clamp that makes alignment and installation a snap.

FOR RACING USE ONLY

GYT-18P31-KT-01

6 Black Nerf Bars, Black Webbing

High quality yet weight 6063 aluminum alloy 30.5mm tubing construction with durable black powder coating finish for the ultimate in light weight, strength and performance. Features a extruded joint clamp that makes alignment and installation a snap. For those who only want the best.

FOR RACING USE ONLY

GYT-18P31-KT-04

7 Plastic Frame skidplate White

Lightweight 6.4mm polyurethane construction is much lighter than aluminum plates that provides a smooth and slick surface so the unit can "glide" over track obstacles. Mounting holes are recessed to help protect mounting hardware. Protects the frame, engine, and chassis components. Drain holes located in key areas that allow mud and water to drain that reduces mud and dirt weight and provides easier unit clean-up.

18P-F84N0-S0-00

8 Plastic Frame skidplate Black

Similar specifications to the White plastic frame skid plate. Perfect match to both red/white and blue/black machines.

18P-F1471-U0-00

1 Alu Frame Skid Plate

Protects the frame and steering stem sleeve, engine, and chassis components. The mounting holes are dimpled, preventing hardware damage and is easy to install (no loose spacers to lose or align). Strong yet lightweight 5052 4mm thick aluminum alloy sheet metal for the ultimate in protection and performance. Smart design has oil drain holes located in key areas that allow oil, mud and water to drain, reducing mud and dirt weight and providing easier unit clean-up and maintenance. Rubber pads in key areas help prevent stock component damage and minimal vibration noise.

18P-F84N0-V0-00

2 A-Arm Skid Plates

Strong yet lightweight 3.2mm thick 5052 aluminum alloy sheet metal for the ultimate in protection and performance has drain holes located in key areas that allow mud and water to drain, reducing mud and dirt weight and provide easier unit clean-up. Rubber pads in key areas help prevent stock component damage and reduce vibration noise. protects A-arms, steering and suspension componets. mounting holes are dimpled to prevent mounting hardware damage and provide easy installation.

18P-F31A0-V0-00

3 Swing arm skid plate

Improved smart and lightweight design compared to the YFZ450 '08 model whilst the chain and disk are optimal protected

18P-W0746-00-00

4 Chain and Disk protection

Offers protection for human and machine and required for race-use. Must be fitted on the Swing-arm protection (sold separately)

18P-W0746-10-00

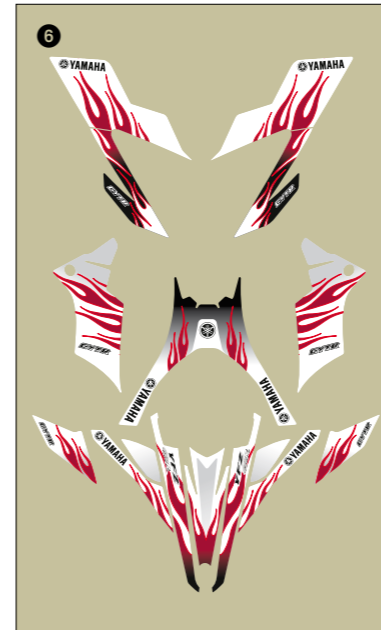

5 Aluminum Footwells

Good looking aluminium footwells to protect your feet.

1 MX boots

These high quality MX boots in the basic colours of grey and black are ideal to match any Yamaha of road clothing. For an even better match, we have in our assortment various coloured straps. An injected contoured shin plate and wide calf plate give superior protection, and the four adjustable aluminium buckles and soles are all available as spare parts

The Yamalube® difference

At Yamaha, we believe the oil is as integral a part of the engine as any other. So critical, in fact, that we design our engines' design and performance specification based on the oil they will use. By synchronising the development of Yamalube® with the machines it's engineered for, we've delivered high-quality genuine oils recognised by many of today's riders as the perfect match for the power of their Yamaha. We carefully select the base oil and additives best suited for purpose, then rigorously test our oils to ensure a good affinity with the

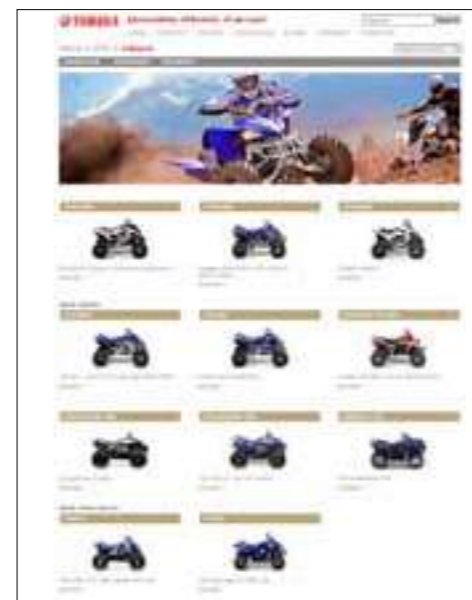

Yamaha unit to bring out its fullest potential. Our dedication to the Yamalube® Product Range ensures we can give full support to the differing technical specifications and performance demands of each individual country – matching engine and oil for maximum performance every time.

THE OIL OF CHAMPIONS
With a legendary reputation built on countless racing victories, you can trust Yamaha to deliver 'Quality Before Anything'. And our oils are no different. Our

commitment to providing the finest oil for your Yamaha has created Yamalube® – a range of oils precisely formulated to suit the unique conditions facing your engine, from the very same team who engineered it. Extensively tested and proven in the lab and the field, Yamalube® performance oils safeguard your engine while keeping it performing to its peak. Truly the oil of champions, it's the only choice for your Yamaha. Why trust your engine to anything less?
