A close-up photograph of a motorcycle engine's timing cover. The cover is primarily a dark, metallic color, likely aluminum, with a black protective plate mounted on top. The plate features a textured surface and a logo that reads "Ducati". The engine components are visible through various openings and are secured with several screws. The lighting is dramatic, highlighting the metallic textures and the protective plate.

A close-up, front-facing view of a motorcycle's front fairing. The central focus is a large, black, vertically-oriented mesh screen. This screen is held in place by four bright green bolts, two on each side. Below the mesh is a prominent, bright green V-shaped fairing element. At the very bottom, a clear, multi-faceted headlight is visible. The surrounding motorcycle bodywork is primarily black with silver accents. On the left side, a green component with the text 'L50R' is partially visible. The background is a dark, neutral grey.
